CHIVE/C-126-66  
14 June 1966

MEMORANDUM FOR: CIA Member, COINS Working Group  
SUBJECT : COINS Contribution

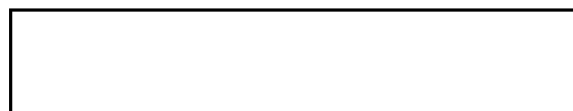

1. CHIVE agrees to coordinate or provide directly those four files which constitute the OCR contribution to COINS. Attached to this memorandum as Attachments 1 and 2 are brief descriptions of the CHIVE Location Dictionary File and Organization Dictionary File. These two files are, or shortly will be, under machine control. They constitute the first two (of four) files to be the OCR contribution.

2. The other two files are as follows:

25X1

The first of these is in punch card form and we will soon supply you with a description of that holding. Data for the fourth file is presently in the form of hard copy documents scattered throughout a number of files and thus a machine-processable file must be developed. Design is presently underway and we will keep you informed of our progress.

25X1

Director  
CHIVE Task Force
